

Dear Members,

As the newest member of the CBA Southeast committee, I'd like to take this opportunity to introduce myself. I'm Dr Lucie Bolton and I have spent my career to date working across the country as a Palaeolithic specialist and more recently as a Community Archaeologist for Kent County Council and Kent Wildlife Trust. I am delighted to be a part of the committee and look forward to getting involved wherever possible.

I grew up in Kent and before I left school I was volunteering on CAT excavations in Canterbury. Well and truly bitten by the bug I went to study Archaeology at the University of Exeter. It was there I developed an interest in Lithics and Experimental Archaeology. Undergrad completed, I went on to study for a Masters in Palaeolithic Archaeology and Human Origins at the University of Southampton where I stayed to complete my PhD thesis on the origins of Levallois technology.

Palaeolithic archaeology will always have my heart. I find it fascinating how much we can learn about past human lineages from the tools and remains we have uncovered. The southeast is home to a whole host of Palaeolithic sites from Boxgrove and Swanscombe with the earliest human remains in the country to the Ebbsfleet Elephant and the ficrons, cleavers and giant handaxes from Cuxton; we are spoilt for choice.

I spent a number of years helping to reconstruct past environmental conditions using palaeoenvironmental samples. This deep-time analysis started me on the road to becoming the environmentalist I am today. Climate change is having a devastating impact globally and archaeology is no exception. In the past 18 months alone we have seen the collapse of historic buildings such as the Lewes Castle boundary wall and the remaining tower of Eastbridge Church, on Romney Marsh.

As archaeologists we need to adapt and respond to the challenges of Climate Change but we also have a responsibility to ensure we are minimising our environmental impact. Last year, the Archaeology and Climate Change conference co-hosted by CBA Southeast and Sussex Archaeology Society provided some inspiring talks which have started the conversation. With my appointment to the CBA Southeast committee, it is my intention to keep that momentum going.

Lucie Bolton

CBA News

The Young Archaeologists' Club (YAC) has been managing clubs for over 40 years. These have been mainly run as weekend clubs in informal learning spaces, such as museums, community halls and parks. **We are now very pleased to be able to offer primary and secondary schools the chance to set up their own after-school club within their school setting.**

These clubs are an opportunity for school pupils to learn all about archaeology and why it matters, whilst exploring the many eras of human history, such as the Romans, Vikings, Ancient Egyptians and Victorians. Archaeology provides the opportunity to tie in many different aspects of learning, from geography, science and art to developing teamwork and leadership skills.

It is hoped that by creating an after-schools network we will be able to support teachers to introduce the subject to more young people across the UK. By doing so, we will also be able to reach individuals who cannot attend weekend clubs for all sorts of reasons (lack of transport, distance to clubs, etc.) and those who might not usually engage with archaeology and heritage.

After-School YAC clubs have access to the same support as our affiliate YAC branches (we have two types), meaning leaders can use our YAC branding, utilise all of our resources, and come along to the training days we offer. Club members will be able to join the [YAC PASS](#) scheme, enter competitions and much more!!!

If you are an educational professional interested in setting up an After-School Club please email vac@vac-uk.org for more information.

The **CBA Annual General Meeting** will take place **Thursday 3 February 2022** from **11:00-14:00**. Standing business will include a review of the year, appointment of new trustees, presentation of the annual report, ratification of membership rates for 2022/23 and ratification of Professor Marilyn Palmer as an Honorary Vice President of the CBA. **It will be held online and more details will be made available in early January.**

The AGM will be followed by the Beatrice de Cardi Lecture and we are delighted that this year we will be hearing about the British Museum's World of Stonehenge Exhibition from its lead curator Dr Neil Wilkin. **There will also be announcements on the Festival of Archaeology and the March Community Archaeology Awards.**

Grants

The CBA South East has been able to offer grants to suitable archaeological projects for a number of years. The types of project vary and have included community activities, research, excavation, and support towards publication. A good number of excavations have had CBA-SE support, over all the region.

Some of the funding has gone towards the cost of hiring equipment. Some archaeological groups have been supported with help towards the purchase of specialist equipment. Geophysical projects have been supported in the past, as have school digs. Projects that offer encouragement and field work for school children is often supported. Other grants have been awarded for archaeological training courses, and teacher training. Research has had grants for numerous investigations including the studies of Valencian tiles, Palaeolithic finds in the Lewes museum, metalwork from the Frensham excavations and a study of tesserae from the Southwick Roman Villa.

A number of archaeologically related publications have been supported with children's journals, a book on the Wealden Iron Industry, and a publication on the Reculver Roman Fort among the awards. Other projects which have been awarded grants have included financial assistance for carbon 14 dating.

There is also a ring-fenced Young Archaeologists fund for YAC and Museum Groups which may need some small funds to kickstart projects and events.

If your group or project is lacking in funding then the CBASE may be a source of funds. The committee meets every 4 months and applications can be reviewed throughout the year. If you would like to apply for a CBASE grant contact the Grants Officer at john.funnell@brightonarch.org.uk for an application form and terms and conditions. If successful, then a note about the project will be requested for publication in the newsletter.

CBA YAC Grants

In addition to CBA-SE's own Young Archaeologists grant funding, YAC have launched a small grants scheme to help YAC branches with COVID recovery.

The grants are **£200** per branch and there are no restrictions on what they can be spent on, as long as they help with restarting in-person sessions.

The funding has come from several different pots. For English Clubs, **Historic England** have made funds available as part of their broader core funding for the YAC.

For Northern Ireland and Scotland, the **CBA** have helped fund the YAC, and funding has already been provided to YAC Welsh groups via the **NLHF project, Unloved Heritage**, managed by Cadw.

You can read the full blog about the YAC grants by following <https://www.yac-uk.org/news/launching-small-grants-for-yac-groups>.

Sally Christian Grants from Sussex Archaeological Society to support individuals starting out in archaeology as amateurs or students (including sixth formers) to assist with the costs of practical or academic training, and to enable them to gain experience in archaeological fieldwork and other forms of research in Sussex.

This grant fund has been put on hold while Sussex Archaeological Society considers the way forward for Society funds and activities.

Fundraising Accounts

CBA Southeast has set up multiple fundraising accounts that supporters may use to help to fund our charitable aims, and hopefully aligned with your preferences.

These are:

1. Give as you live (www.giveasyoulive.com), our charity name being Council for British Archaeology South-East (short name: CBASE)
2. Easyfundraising (www.easyfundraising.co.uk), our charity name being Council for British Archaeology South-East
3. Amazon (through your Amazon account www.amazon.co.uk) by selecting our charity (Council for British Archaeology South East) under your account settings 'Programs and Features' (desktop) or 'Settings' (smart devices) and selecting 'AmazonSmile')

Supporters having difficulties in setting up such a service are welcome to contact us at cbasoutheast@hotmail.com.

Please email any events, talks, recent publications relevant to the south-east, or fieldwork opportunities to events@cbasouth-east.org

Next e-letter will be issued approximately **March 1st**– please send any March, April and May items by **February 25th**.
