## Grants

The **CBA South East** has been able to offer grants to suitable archaeological projects for a number of years. The types of project vary and have included community activities, research, excavation, and support towards publication. A good number of excavations have had CBASE support, over all the region, with some of the funding going towards the cost of hiring equipment, including support towards the purchase of specialist equipment.

Geophysical projects have been supported in the past, as have school digs. Projects that offer encouragement and field work for school children are often supported. Other grants have been awarded for archaeological training courses and teacher training. Research has had grants for numerous investigations including the studies of Valencian tiles, Palaeolithic finds in the Lewes museum, metalwork from the Frensham excavations and a study of tesserae from the Southwick Roman Villa.

A number of archaeologically related publications have been supported with children's journals, a book on the Wealden Iron Industry, and a publication on the Reculver Roman Fort among the awards. Other projects which have been awarded grants have included financial assistance for carbon 14 dating. Any archaeological project whether field or post excavation can be worthy of support. Applications will be reviewed on **1<sup>st</sup> April** and **1<sup>st</sup> October** for consideration by the committee.

There is also a ring-fenced Young Archaeologists fund for YAC and Museum Groups which may need some small funds to kickstart projects and events.

If your group or project is lacking in funding then the CBASE may be a source of funds. If you would like to apply for a CBASE grant, contact the Grants Officer at [john.funnell@brightonarch.org.uk](mailto:john.funnell@brightonarch.org.uk) for an application form and terms and conditions. If successful then a note about the project will be requested for publication in the newsletter.

## CBA YAC Grants

In addition to CBA-SE's own Young Archaeologists grant funding, YAC have launched a small grants scheme to help YAC branches with COVID recovery.

The grants are **£200** per branch and there are no restrictions on what they can be spent on, as long as they help with restarting in-person sessions.

The funding has come from several different pots. For English Clubs, **Historic England** have made funds available as part of their broader core funding for the YAC.

For Northern Ireland and Scotland, the **CBA** have helped fund the YAC, and funding has already been provided to YAC Welsh groups via the **NLHF project, Unloved Heritage**, managed by **Cadw**. You can read the full blog about the YAC grants by following <https://www.yac-uk.org/news/launching-small-grants-for-yac-groups>.

**Sally Christian Grants from Sussex Archaeological Society** are available to support students and early career heritage professionals conducting archaeological research or study related to Sussex. Grants are awarded in March and October and the next deadline for applications is October 25<sup>th</sup> 2024.

Full details of what can be funded and how to apply are at: <https://sussexpast.co.uk/research/the-sally-Christian-fund/>
